Did you know?

Basketball is CANADA'S FASTEST GROWING SPORT!

Today, the growth rate of basketball participation in Canada among the country's youth, exceeds that of hockey and soccer! Since 2010, basketball participation has seen a growth rate of 16 percent. A 2010 study found that basketball is the most popular team participation sport in Canada among youth between the ages of 12 and 17. Additionally, 29 percent of all households in Canada have a household member who participates in basketball. Part of the reason for the sport's growing participation in Canada in the face of soccer and hockey, is its accessibility (source Forbes Magazine online).

Making a difference!

We believe in opportunity for all. Every kid should have a chance to discover, develop and play a sport they love.

Each year, 10% of all sponsorship funds collected (club and team level) will be directed back to the club to support player opportunities for youth who might not otherwise be able to play due to financial constraints.
